26	27	28	29	30			28	29	30					

Copying the Mini Calendars

To create copies of the previous and next month calendars as pictures, rather than linked objects, you will need to use a little "trick".

- a) Select one or both of the calendars
- b) Hold down the "Shift" key as you click on the Edit menu. This makes the o "Copy Picture..." appear.
- c) Choose the options you want, and select OK.
- d) Paste (Ctrl+v) the image into Excel.

Hiding / Showing Cell Gridlines

To toggle the cell gridlines on and off in Excel, go to Tools -> Options -> View then check or uncheck the Gridlines option.

If you find yourself doing this frequently, you can add a button to your toolbar that will toggle the gridlines on and off.

- 1) Go to **Tools -> Customize ...**
 - 2) In the **Commands** tab, choose the **Forms** category
 - 3) Scroll down the list of Commands until you see the **Toggle Grid** button
 - 4) Drag and drop the toggle grid button into one of your toolbars
- A convenient place for the grid button is next to the zoom dropdown box.

Modifying the Format/Color/Etc.

This calendar uses **CONDITIONAL FORMATTING** to change the background color of the cells. To remove all conditional formatting, select all the cells in the calendar, then go to Format > Conditional Formatting ..., then select Delete, then check all three boxes and select OK.

If you want to modify the background color and keep the conditional formatting, the easiest way to do it is to modify the color in the color palette. This is done by going to Tools > Options... > Color Tab. The three colors used for the calendar are circled below.

Changing the Fonts

To quickly select all of the cells within the calendar other than the cells containing the day of the month, press Ctrl+G and select "calendarEvents". This will highlight all of the "event" cells in the calendar, allowing you to then change the font color.

To quickly select just the cells containing the day of the month, press Ctrl+G and select "calendarDays"

H Value

Compliment (+180)	93
Analogous 1 (+30)	303
Analogous 2 (-30)	243
Custom (0-360)	100

If you use a secondary color, you can choose from the Compliment or Analogous color, or define your own custom secondary hue. The H value ranges from 0 to 360, and represents the angle on a color wheel.
